Using a working set limited to 1050 pages and 39 pages of data storage (excluding image)

Total number object records read (both passes): 771
of which 390 were in libraries and 70 were DEBUG data records containing 4800 bytes

Number of modules extracted explicitly = 1
with 19 extracted to resolve undefined symbols

46 library searches were for symbols not in the library searched

A total of 0 global symbol table records was written
